

# Memorandum

To: CHAIR AND COMMISSIONERS

CTC Meeting: November 8-9, 2006

Reference No.: 4.8  
Information Item

From: CINDY McKIM  
Chief Financial Officer

Prepared by: Karla Sutliff  
Division Chief  
Project Management

Subject: **REPORT ON INVESTMENTS TO STATE HIGHWAY SYSTEM BY OUTSIDE FUNDING SOURCES**

## **SUMMARY:**

CTC Resolution G-96-17, adopted July 11, 1996, requires the Department of Transportation (Department) to provide the California Transportation Commission (Commission) with a funding summary of projects on the State transportation system financed by other agencies during the previous year. The Department should also include a list of those projects where the local contribution exceeds \$20 million.

Attachment 1 (Summary of Local Funding for State Transportation Projects) includes information by county on projects that are 100 percent locally-funded and those projects in the State Transportation Improvement Program (STIP) and State Highway Operation Protection Program (SHOPP) that are partially funded with local funds. The information displayed shows funding from Sales Tax Measures separate from other local funds.

Attachments 2 through 7 identify those specific projects by county where the local contribution for a project on the State transportation system exceeds \$20 million.

The Commission also requested that the Department identify those agencies with existing local sales tax measures in California. This information is provided in Attachment 8.

Attachments

# FACT SHEET

## Local Funding on Transportation System

### Sales Tax

Optional local sales taxes for transportation originated in 1970 when the Legislature authorized several counties served by the Bay Area Rapid Transit District to impose a regional sales tax. Since then, the Legislature has authorized counties to impose (subject to voter approval) a special half of one-percent sales tax for transportation purposes. In most cases, the authorization also requires that voters be provided with an expenditure plan that lists how the new funds will be utilized.

There are five Transit Districts and 17 counties that have sales tax measures. (These counties are commonly referred to as the “Self Help” counties.) These taxes contribute a large share of transportation revenues within the state<sup>1</sup>.
